William D. Keller
Tait & Associates, Inc.
1100 Town & Country Road, Suite 1200
Orange, CA 92668

Dear Mr. Keller:

Industrial Wastewater Discharge Permit No. 799

McDonnell Douglas Corp.
19503 South Normandie Ave.
Los Angeles, CA 90501

This is a response to your letter of July 19, 1996, requesting clarification on whether McDonnell Douglas Corp. would be allowed to distribute established sewer capacity units among various users or lot owners at the subject site which is proposed to be demolished. Section 3.04 of the *Master Connection Fee Ordinance of County Sanitation District No. 5 of Los Angeles County*, copy enclosed, allows sewer capacity units applicable to the specific parcel upon which a demolition has occurred to be allocated by the owner to buildings being constructed on the same parcel. Provided these conditions are met, McDonnell Douglas Corp. must submit a written request for the allocation of established sewer capacity units among the buildings to be constructed to the Sanitation Districts for approval.

If you have any questions concerning these requirements, please contact Alicia Jauregui of the Sanitation Districts' Industrial Waste Section at extension 2918.

Very truly yours,

Charles W. Carry

John D. Kilgore
Supervising Civil Engineer
